## **ROUSH® PERFORMANCE LIQUID PROPANE INJECTION KIT**

### **FOR FORD F150 5.4L 3V**

#### **Who is Covered**

ROUSH's warranty obligations for the ROUSH® Liquid Propane Injection Kit ("Propane Kit") for installation on Ford F-150 5.4L 3V vehicles is limited to the original owner of the vehicle in which the Propane Kit is installed and who has submitted the Warranty Registration Card and other required documentation in order to activate this warranty. This warranty is transferable to a second owner and is secondary to all other warranties and manufacturers' recall that may be in effect. The Propane Kit must be installed by a certified Ford Automotive Technician or ASE Automotive Service Technician and in a facility that meets all applicable, federal, state and local propane handling requirements.

#### **Warranty Period**

The Warranty Period for all ROUSH® components comprising the Propane Kit is as follows:

3 years or 36,000 miles from the vehicle's original in-service date (warranty start date) as determined by Ford dealer OASIS (On-Line Service Information System) report for the Ford F150, whichever date is first.

#### **Warranty Coverage**

ROUSH's limited warranty covers defects in ROUSH materials and workmanship from the beginning of the applicable Warranty Period described above. The original Ford Motor Company warranty continues in force on all vehicle components except those replaced by the Propane Kit. For example, when the Ford fuel tank is replaced by the Propane Kit fuel tank, the Ford warranty no longer applies to the installed Propane Kit fuel tank.

Below are those ROUSH® components comprising the Propane Kit and covered under this warranty:

#### **COVERED FUEL SYSTEM COMPONENTS OF THE PROPANE KIT:**

**Propane fuel tank assembly, which includes the fuel pump, fuel sender, multi-valve, fuel lines, fuel rail, injectors, air box lid, hydrocarbon trap, and air induction tube.**

When you present ROUSH with a valid, properly documented warranty claim during the applicable Warranty Period, we will repair or replace the defective component(s) covered by this warranty. Any Propane Kit component(s) ROUSH replaces under this warranty will become the property of ROUSH. Further, those replaced component(s) will be considered part of the original Propane Kit and will assume the remaining applicable Warranty Period for the installed Propane Kit.

### **Obtaining Warranty Service**

- A repair facility, which meets applicable federal, state and local propane handling requirements, must complete any repair or replacement based on the written estimate from such facility provided to us. Final repair costs will be at the sole discretion of ROUSH and will be based on Ford Standard Labor rates and labor times for required repair procedures. Labor times exceeding these standards due to specific vehicle applications or modifications will be the responsibility of the customer.
- To initiate a warranty claim on your vehicle upfitted with the Propane Kit, the vehicle must have an operational odometer. Please have the propane service/repair facility (which meets all applicable federal, state and local propane handling requirements) contact us immediately at 800.59.ROUSH/800.597.6874. ROUSH's authorization is required before any disassembly or repairs are initiated to diagnose the failure. NOTE: Your failure to call ROUSH and receive authorization before any repair work is performed will invalidate your warranty claim.

- If a warranted component of the Propane Kit has failed, please contact us immediately at 1-800-59-ROUSH (1-800-597-6874). You must authorize the repair facility to tear down the component for inspection before we authorize the replacement of a failed component covered by this warranty. If the failed component is not covered under this warranty, the tear down and subsequent repair costs are solely your responsibility.
- To obtain warranty service on your vehicle upfitted with the Propane Kit, the vehicle must have oil changes performed at the intervals of every 3 months or 3000 miles, whichever occurs first, either at a dealership or commercial maintenance center. You are responsible for providing ROUSH with proof of proper maintenance when you request any repairs under this warranty.
- ROUSH may require copies of the following documents with your warranty claim:
  - (a) your warranty registration form,
  - (b) the receipt showing installation of the Propane Kit by a certified Ford Automotive Technician or ASE Automotive Service Technician.
  - (c) all requested vehicle maintenance records.
