Friday, May 21st – Hooked on Driving, Pocono Long Course, Sponsored by ROUSH Performance

Hooked On Driving puts drivers of street cars from all manufacturers on a closed road course with a coach in the passenger seat to help guide them through the fundamentals of performance driving in a no-pressure atmosphere. Learn “the line,” what an apex turn is, and gain a more in-depth appreciation for your car’s true performance potential. The event groups drivers by experience and skill level and offers teaching sessions after each session on the racetrack. Session times will be broken down by experience levels so beginners don’t have to worry about making a mistake or getting in the way of those with more track time. The Hooked On Driving Program truly caters to drivers of all levels and can help anyone gain confidence and skills behind the wheel.

Each group has five track sessions during the day which is time enough to wear out most drivers - and create a lifetime memory. All you need to provide is a car in good working order (of any brand), a helmet, and a desire to learn and have fun. Lunch is provided too!

Tentative Agenda:

- 7:00 am: Gate and registration opens – all drivers to finish paperwork and receive a wristband.
- 7:30 am: Reconnaissance laps done by coaches and advanced drivers giving rides to new drivers
- 8:00 am: All Drivers’ meeting
- 5:00 pm: The last run is completed
- 5:15 pm: Depart the track and go to a group dinner (individual order and pay).

* The track will email out a Track-Specific agenda to all registrants who have supplied their email address at registration no less than four days prior to your event. This will come from info@hookedondriving.com.
