*To initiate a warranty claim, please contact us immediately at 800.59.ROUSH/800.597.6874. ROUSH authorization is required before any disassembly or repairs are initiated to diagnose the failure. **NOTE: Your failure to call ROUSH and receive authorization before any repair work is performed will invalidate your warranty claim.**

Who is Covered

ROUSH's warranty obligations for any ROUSH® Crate Engine ("Crate Engine") is limited to the original owner of the vehicle in which the Crate Engine is installed and who has submitted the Warranty Registration Card and other required documentation in order to activate this warranty. This warranty is not transferable to a second owner and is secondary to all other warranties and manufacturers' recall that may be in effect.

Warranty Period

The Warranty Period for the Crate Engine is either 1 year or 12,000 miles (whichever is reached first) for the 331 SRX & SRXE series of crate engines or 2 years or 24,000 miles (whichever is reached first) for all of the other crate engines (Non – 331 SRX & SRXE). The Warranty Period begins on the earlier of (a) the original in-service date (subject to ROUSH's verification) of the Crate Engine as determined by the installation date shown on your service installation receipt, or (b) 90 days from the purchase date from ROUSH of the Crate Engine as shown on your ROUSH Invoice -OR- ROUSH shipping Bill of Lading evidencing the proof of purchase date.

Warranty Coverage

When you present us with a valid, properly documented warranty claim during the Warranty Period, we will, at our option and sole discretion, repair or replace the defective component(s) covered by this warranty. Anything we replace under this warranty becomes the property of ROUSH. Any component(s) we replace under this warranty will be considered part of the original Crate Engine and will assume the remaining Warranty Period for the Crate Engine.

Roush's total liability to you under this warranty for a covered Crate Engine is limited solely to 40% of the original price you paid for the Crate Engine.

When a Crate Engine is correctly and completely installed, ROUSH will cover defects, subject to the exclusions and limitations identified in this warranty, in our materials and workmanship during the Warranty Period, as solely determined by us. ROUSH warranty coverage provisions as follows:

-Engine repairs totaling \$499 or less (based on the total repair estimate) will be reviewed by the ROUSH corporate office. If approved, a ROUSH approved repair facility will be authorized to complete these repairs. Any repairs costs exceeding \$499 for completed repairs at a facility other than the ROUSH build facility in Livonia, Michigan will be the sole responsibility of the customer.

-Engine repairs totaling \$500 or greater (based on the total repair estimate) will be reviewed by the ROUSH corporate office. These engines will be required to be returned to the ROUSH build facility in Livonia, Michigan to complete warranty repairs. Removal of the crate engine, proper crating of the engine and reinstallation of the engine once returned will be the sole responsibility of the customer. ROUSH will incur the cost to pick up the crated engine, ship to the Livonia facility, repair the engine and return to the customer when the repairs are complete.

*Note: Engines that are removed to be sent back to the ROUSH facility **MUST** be completely intact and not disassembled unless authorized by ROUSH prior to shipment. Improper crating of the engine causing damage in shipment to the ROUSH facility will not be covered by ROUSH and the sole responsibility of the customer.
